This healing modality originates from ancient wisdom teachings of the Andes combined with modern neuroscience. The goal of this work is to clear & upgrade our luminous energy field allowing us to awaken to a vision of our healed nature. Some of the techniques involve gentle, therapeutic touch and placing stones on the chakras. For those actively using drugs or alcohol or those with psychosis or hallucinations Shamanic Energy Medicine may not be a good treatment method. Clients need to be able to distinguish between ordinary and non-ordinary reality to receive benefit from these sessions.

Shamanic work is not licensed nor overseen by any official regulating body. Holly Schmitt is Certified by the Four Winds Light Body School & adheres to ethical practices of confidentiality & professional conduct. These services are not construed to provide medical advice, diagnosis or treatment, and are not a substitute for medical or professional care. In receiving these services you agree to release Holly Schmitt of all liability & to take personal responsibility for the work you undertake.

Please provide an emergency contact & phone _____
